EXPERIENCE

CREATIVE COORDINATOR | Brique par Brique
Sep 2023 - Present | Montreal, QC
- Enhanced the organizations website
- Conceptualized and implemented a user-friendly system tailored for individuals with minimal tech literacy, allowing seamless operation while ensuring comprehensive data collection in ana centralized database for our neighborhood time bank project.
- Strategically planned, organized, and marketed a range of community-focused events.
- Actively contributed to the documentation of events through dynamic storytelling in both long-form and short-form content.
- Enhanced the operational efficiency of our community space by supporting management activities, assisting with multimedia resources

LAB TECHNICIAN | Concordia University
Sep 2022 - Present | Montreal, QC
- Managed the documentation lab, overseeing its operations and ensuring resource availability for the Design and Computation Arts department.
- Provided technical support and guidance to students utilizing studio equipment for the creation of photographic and video content for their projects.
- Assisted students and faculty with the photography and post-production processes, enhancing media quality for various departmental projects and events.

UI/UX DESIGNER INTERN | ScienceReach
Jun 2022 – Aug 2022 | Montreal, QC
- Led the responsive designs for the Website and platform across all screen sizes using Node.js.
- Designed mockups for the company's full web app pages using Figma.
- Created a new information architecture schema while collaborating with the communications intern to develop content strategy, and designing sketches, flow diagrams, wireframes and mockups.
- Contributed to a small task force to redefine the brand and explore multiple concepts to elevate the design system.
